Министерство образования Республики Беларусь

Учреждение образования

«Брестский Государственный технический университет»

Кафедра ИИТ

Лабораторная работа №2

По дисциплине «Обработка изображений в ИС»

Тема: «Конструирование моделей на базе предобученных нейронных сетей»

Выполнил:

Студент 4 курса

Группы ИИ-21

Корнейчук А. И.

Проверил:

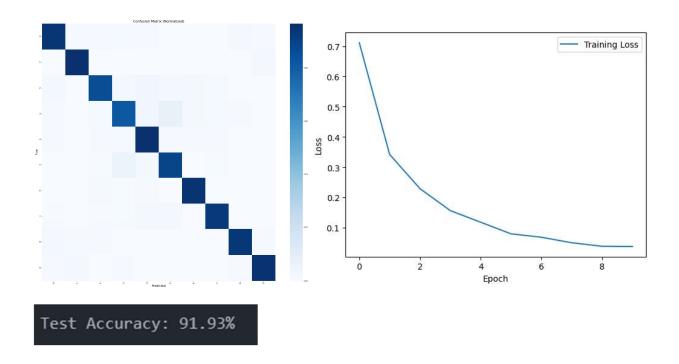

Крощенко А.А.

Цель: осуществлять обучение НС, сконструированных на базе предобученных архитектур НС.

5	CIFAR-100	Adadelta	ResNet18
